

The Heartlands welcomes new Compliance Officer, Cameron Whillas

At The Heartlands we are committed to fostering the Owners Corporation (OC) to ensure that each of our residents are not only enjoying the amenity available at The Heartlands, but that the neighborhood is kept looking neat and tidy for visitors to your homes.

In order to keep your neighborhood in a condition to be proud of, it is important that owners and residents assist in maintaining the design and estate guidelines. Beyond ensuring the pool and gym are functional, lights are kept working and grass is cut and maintained, it is important each owner and resident maintains their garden and home.

To help the OC manage the look and feel of your neighborhood, we have a new Improvement Officer, Cameron Whillas, who will be touring the community on a regular basis. Cameron can be identified by photo ID when walking throughout The Heartlands and is an active member of Scouts Australia, holding a Working with Children card and police check.

Cameron will be assisting the OC to ensure that all owners and residents maintain the design guidelines and he will be sending out regular notices and reminders for any homes that don't currently comply with our estate's design guidelines or standards. It's all part of our commitment to create an ideal community for our residents to live in and prosper. To avoid any issues being taken to VCAT, which often results in owners' paying for failure to comply with design guidelines, we request that you assist Cameron in helping to keep your community clean.

Formal compliance inspections will commence in June/July 2016.

Please join us in making Cameron feel welcome!
